PEARL OF PHUKET

by Phuket Pearl Industry Co., Ltd.

PEARL

We produce "The Queen of Deep Sea".
Only one gem is born from aquatic animals...

Our Pearl Farm...

Location

The Pearl Farm is located about 1 km. offshore in the vicinity of Sapham Bay, on the east coast of Phuket Island in Thailand. The farm is accessible by a five-minute boat ride.

Rather Round Pearl

001

002

General Description

Climate and water conditions along Phuket's eastern coast are ideal for pearl production. Two daily tides ensure a steady, natural supply of the nutrients upon which the oysters feed : high quality plankton at the correct water temperature for optimal growth, 26 - 29 c. Local sea currents ensure clear seawater conditions year-round.

New Product

There is Serie No. for all Rather Round Pearl.

Type of Pearl of Phuket' s Pearls

We have culture pearl from farm in sea water.
We have 3 kind of pearls from different kind of oyster.

MABE PEARL

AKOYA PEARL

SOUTH SEA PEARL

Our Showroom...

A PEARL OF VALUABLE AND QUALITY

ปัจจัยที่มีความสำคัญต่อยุค

Lustre (ประทศ และ ความแวววาว)

High Lustre ← → Low Lustre

The most appreciated factor of a pearl's beauty. Good quality pearls have a lustrous gleam.

Surface (ผิวสัมผัส)

Clean ← → Heavily Blemished

The smoothness of pearl's surface. The less blemishes a pearl has on its surface, the higher it is ranked.

Shape (รูปร่าง)

Round ← → Baroque

The rounder pearls are valued more highly, though off-round, drop and baroque shapes have been acquiring greater popularity.

Color (สี)

Rose Silver/White Cream Gold Blue/Gray

Though pearls come in a variety of colors, rose-white or silver-pink pearls have been the most popular and expensive.

Size (ขนาด)

9 mm. 8 mm. 7 mm. 6 mm. 5 mm. 4 mm.

The size of pearl depends on the size of the bead inserted into the mother oyster and the thickness of the nacre. The latter is one of the most important factors in determining quality.

General Description

" Pearl Of Phuket " one of Thailand 's first Integrated pearl producers and the only pearl producer in Phuket, knows this by heart. The making of a pearl ornament is a complicated and delicate process, no matter what type of pearls it is, whether is Mabe, Akoya or South Sea. The intricate process starts from the cultivation to the selection, cutting, designing and finally assembling.

Issued by : Department of Fisheries
(Ministry of Agriculture and Cooperatives)

South Sea Pearl (มุกเซ้า)

These expensive, spherical pearls are harvested at a minimum diameter of 8 mm. and can be white, cream or even black in color. They are very popular among pearl.

South Sea Pearl

Rather Round Pearl (มุกเกือบกลม)

Issued by : Department of Industrial Promotion
(Ministry of Industry Thailand)

How are we different ? ทำไมเราถึงแตกต่าง

Pearl of Phuket has developed and patented Double Lock System (DLS) with its special and unique manufacturing process. With DLS, our gorgeous pearl and ring are fixed firmly together to provide greatest durability and deep beauty beyond visibility.

Double Lock System (DLS) ถูกคิด โยมุก ได้พัฒนาและจดทะเบียนสิทธิบัตร กระบวนการผลิต ที่เป็นเอกลักษณ์ พิเศษขึ้น โดยนำมาใช้ประกอบตัวเรือนกับมุก เพิ่มความแข็งแรงในการยึดเกาะ เพื่อความงดงามที่ล้ำลึก กว่าที่สายตามองเห็น

ABOUT

PHUKET PEARL INDUSTRY CO., LTD.

Pearl Farm

Location

The Pearl Farm is located about one kilometer offshore in the vicinity of Sapam Bay, on the east coast of Phuket Island in Thailand. The farm is accessible by a ten-minute boat ride.

General Description

Climate and water conditions along Phuket's eastern coast are ideal for pearl production. Two daily tides ensure a steady, natural supply of the nutrients upon which the oysters feed : high quality plankton at the correct water temperature for optimal growth, 26 - 29 °C. Local sea currents are sufficient to ensure clear seawater conditions year-round.

Factory & Show Room

*We produce "The Queen of Deep Sea".
Only one gem has been born from aquatic animals...*

Care Of Pearl

Please keep your pearls away from perfume, cosmetics, perspiration and stains. After each wearing, wipe your pearls carefully with a soft cloth and keep them separate from other jewelry items. The silk thread of a pearl necklace will eventually slacken or weaken over time. It is recommended that you check the thread regularly and replace it if necessary.

Phuket Pearl Industry

We cordially invite interested buyers to come and view the pearls for themselves at our showroom. We are confident that our strict attention to detail throughout the entire production process will ensure that our pearls and pearl jewelry capture the finest beauty nature has to offer.
